## Great Lakes Service Begins!

"We're going to let action speak louder than words," said Mike Uhl, Holland Terminal Manager, as he viewed some of the new trucks coming into service during April. "The new regional runs out of Holland will

demonstrate the intensity and quality of Western Logistics -- and we've got the men and the trucks to prove it. We all know this carefully-organized start-up plan, developed as a team over the past four months, has paved the way for rapid growth of our domestic service."

*Above: Mike Uhl with one of the new clean diesel compact sleepers for regional runs. Right: Jimmy Mathieu loves the maneuverability of the new 370 tractor for swapping out trailers in West Michigan.*

## Did you know?

That the Upper Peninsula area of Michigan – directly on the route of our Regional runs 1-1 and 1-2 – is one of the fiercest weather areas of North America?

While we're used to temperature extremes, mountain conditions, and ocean storms, it is quite amazing to see what can happen to the Great Lakes, too!

The photo below was taken recently in Mackinaw City, which had the coldest winter in decades.

*When water in Lake Huron becomes supercooled below the surface ice, it expands through the surface and forms this incredible wave.*
